

Hello Mam,

I am writing this email regarding my **Bootcamp journey at Espire**.

So, Starting with my first day in Espire which is (08-08-2022) I was so excited to go inside the office as it was my first company also, and I am really nervous.

When I reached office and meet lots of new people in bootcamp area with all the HR's and fresher's who joined with me it feels so great and excited that what will happen next,

So my first interaction in the office is with @Swati(HR) she told us all the things about espire and give us instructions that what to do or not,

After this we are invited for induction program in Radisson where our all the seniors our Director Mr. Gagan Oberoi was there and they tell us about the working culture, Business, technologies, Tools on which Espire is working.

After that we meet with our Bootcamp Training Manger @Lipi Mishra and @Anuj Srivastava, what can I say about them as they are so humble and always ready to help us in any moment during the training and listen our all the queries and try to solve them as soon as possible, Our Bootcamp Manger @Gurudeo Singh is also very kind nature and tries to solve our queries and help us in every moment.

overall my Journey during bootcamp training was really good as I have gained so much of knowledge about the, technologies, Office culture, Team work, Innovative thinking and lots of other things.

Thank you to all the Espire team for helping me to grow in my Carrier in right direction and I will be always thankful to **Espire Infolabs Pvt. Ltd** for giving me opportunity to express myself in IT Industry.
